

# Your Solution to FDA-Compliant Labeling

## Labeling Solutions for the Most Stringent Regulations

AstroNova has decades of experience providing labeling solutions to leading manufacturers in the nutraceutical and supplement industries, ensuring our line-up of label printers and materials pass the necessary mandated regulations and produce durable, eye-catching labels.

### AstroNova's advanced printing technology:

- Allows for easy compliance with the FDA's label content and print regulations
- Effortlessly creates barcodes, lot numbers, expiration dates, and other necessary variable data
- Produces supplement labels that are accurate, concise, and durable enough to withstand the demands of everyday use
- Allows for last-stage regulation changes, eliminating excess pre-printed inventory and providing less waste and reduced costs
- Provides adequate abrasion resistance, moisture and chemical resistance, ensuring high-quality readability

## Which labeling solution is right for your nutraceutical products?

### TrojanLabel®

#### T2-C

First-ever high-capacity, high-volume tabletop label press capable of delivering precision over long runs

- High print speed up to 12 inches per second (60 ft per minute)
- Superior print resolution up to 1600 dpi
- Print width 2" to 8.8"
- First tabletop press to operate at high-volume capacity and precision of a digital press

### QuickLabel®

#### QL-300

Highly-durable, five-color, toner-based solution providing unique, vibrant designs

- Print speed up to 6 inches per second (30 ft per minute)
- Exceptional print resolution up to 1200 dpi
- Print width 0.83" to 4.95"
- High resolution output with low toner consumption
- Produce rugged labels that withstand abrasion, moisture and UV exposure

### QuickLabel®

#### QL-120X

Premium solution, delivering high-quality labels at a lower total cost of ownership

- Fast print speed up to 12 inches per second (60 ft per minute)
- Superior print resolution up to 1200 dpi
- Print width 0.5" to 4.2"
- Industry best performance
- Excellent reliability

### QuickLabel®

#### QL-850

Wide-format, high-performance solution delivering the highest levels of label durability

- Fast print speed up to 12 inches per second (60 ft per minute)
- Superior print resolution up to 1600 dpi
- Print width 2" to 8.3"
- Latest inkjet technology on the market
- High-productivity wide format label printer

## Perfectly Paired Materials

GetLabels provides label materials expertly engineered specifically for the nutraceutical and supplement industries capable of withstanding the elements. With GetLabels, produce custom labels that are durable and will not bleed, smudge, or smear.

#### Economy High-Gloss White Polypropylene

Features finish uniquely receptive to inkjet label printing, provides durability, and is ideal for high-resolution images on primary, CPG display labels.

#### Hemp Paper

Featuring a permanent emulsion acrylic freezer-grade adhesive, perfect for an organic, eco-friendly look and feel.

#### Gloss Silver Metallic PET

Extreme high-gloss material designed for use in specialty packaging where eye-catching, mirror-like reflectivity is desired.

#### Satin Polypropylene

A white polypropylene label with a satin finish provides superior durability for printing photographic images on primary display labels that must resist moisture and solvent exposure.

Stay ahead of the competition and ensure your products are up to date. With seamless, in-house customization, it's easy to adjust prices and offerings while promoting current inventory. Contact one of our label experts today to find the right machine and materials for your nutraceutical and supplement label printing needs.
