The **LF-100** and **LF-200** Label Finisher is a professional, compact, all-in-one desktop finishing system featuring die-cutting and lamination of labels in a single pass. The system features a highly accurate, digital die-cutter to produce professional labels of virtually all shapes and sizes, while optionally applying a laminate to give labels a high gloss and durable finish.

The **LF-100** is designed for 5" web width, while the **LF-200** is designed for 8" web width. Either model offers the user full flexibility and limitless variations to produce attractive and durable finished labels, while complementing your digital printing production.

Features

- Optical camera designed to read only one black mark for each cut layout, optimizing cutting speed and synchronization.

- Media path with ultrasonic sensor to ensure precise media tracking and speed, resulting in precise die cuts.

- Inexpensive, multi-edge blades extend cut life and reduce frequency of replacement.

- Compact, tabletop footprint with clear operator access to load/unload media and monitor finishing operation.

- Windows-based cut manager software for importing die lines from Adobe Illustrator or CorelDraw. Interfaces directly with optical camera to ensure precise, repeatable cut jobs.
